Transition to Retirement

| | |
|-----------------|---|
| Life Stage: | <i>Getting Comfortable</i> |
| Marital Status: | <i>Married and getting to know each other again</i> |
| Employment: | <i>From employEE to employER</i> |
| Income: | <i>Enough to build that perfect cottage</i> |
| Savings: | <i>We are doing well</i> |
| » Our Goals: | Growing our investments outside our RSPs, tax efficient charitable donations and keeping up our lifestyle. |

Successful, mortgage free, living our way.

“Life is good. We work some, play some and get away some. There is simply more choice about what we can do with our time.

We still have our concerns. Retirement is looming just around the corner and we're now responsible for the care of our parents. All these changes require flexibility in our financial planning. We plan to keep our RSP contributions at their maximum in our last contributing years and now we are able to have substantial savings outside our RSPs.

When we first started our RSPs we always thought they would be enough to live and enjoy retirement on. But how much is enough?

We want our NexGen Tax Managed Funds to **make our retirement about living well**, not just living to get by.”

May 4, 2007

The better way to invest

You've Earned Your Money; Now Invest Better to Reduce Your Taxes

NexGen Registered and Tax Managed Funds were designed to defer and ultimately reduce tax burdens over time. This is tax efficient investing.

Why is Tax Efficient Investing Important?

- To maximize your portfolio size over the long term
- To minimize surprise year-end tax bills
- To keep your hard earned money where it should be ... under your control

Tax Costs over the last 10 years:

- Average **Core Fixed Income Fund** lost 47.5% of pre-tax returns
- Average **Balanced Portfolio Fund** lost 30.8% of pre-tax returns
- Average **Canadian Equity Fund** lost 23.5% of pre-tax returns
- Average **Global Equity Fund** lost 20.7% of pre-tax returns

Morningstar, Average Post Liquidation Tax Efficiency as of March 30, 2007

Ignoring the effect of tax on your hard earned savings could cost you.

Why is NexGen the better way to invest?

Simply put, we have the **MOST COMPREHENSIVE TAX PLANNING MUTUAL FUND PRODUCTS** in Canada.

NexGen **Registered Funds** for your RSP

- Contributing to your RSP is the first step in saving for and securing your retirement.

NexGen **Tax Managed Funds** for your non-registered account

- 14 Tax Managed mutual funds allow you and your financial advisor to regain control of your tax destiny by giving you choice. Choose your investment. Choose your type of taxable income. Choose the NexGen Fund and Tax Class that best suits your investment profile.

The following Tax Classes endeavour to provide:

Capital Gains Class: An annual distribution of capital gains

Return of Capital Class: Monthly tax deferred 'return of capital' income

Dividend Tax Credit Class: Monthly tax efficient Canadian dividend income

Compound Growth Class: Minimal or no distributions

All income is not created equal. Employment Income, Capital Gains, Canadian and Foreign Dividends and Return of Capital, are all taxed differently. NexGen Tax Classes use that to your advantage.

Combined Top Marginal Tax Rates for Individuals – 2007 (%)

| Province | Eligible Canadian Dividends | Non-eligible or Foreign Dividends | Capital Gains | Interest and Employment Income |
|------------------|-----------------------------|-----------------------------------|-------------------|--------------------------------|
| British Columbia | 18.5 | 31.6 | 21.9 | 43.7 |
| Alberta | 17.5 ¹ | 25.2 ² | 19.5 | 39.0 |
| Ontario | 24.6 | 31.3 | 23.2 ³ | 46.4 |
| Quebec | 29.7 | 36.4 | 24.1 | 48.2 |

(1) Alberta announced that this rate will decrease to 14.55% by 2009.

(2) Alberta announced that this rate will increase to 27.71% by 2009.

(3) Ontario announced that this rate will decrease to 22.38% by 2010.

NexGen allows you a choice of investments that meet *both* your investment needs and your tax situation as your life changes. **Your financial advisor can help.**

Your Financial Lifeline

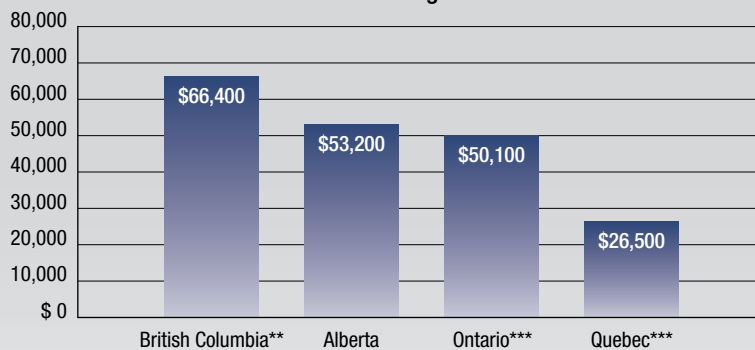

HERE'S AN IDEA

Use different Income Types to receive Income Tax Free

Income from eligible Canadian dividends is taxed at substantially lower rates than interest or foreign dividend income. Depending on your overall income level, a distribution of Canadian dividends could be received tax free through any NexGen Fund by selecting the Dividend Tax Credit Class. In the case of a spouse with modest or no income, he/she could receive approximately \$50,100 tax free in Ontario.

2007 Tax-Free Limits for Eligible Canadian Dividends*

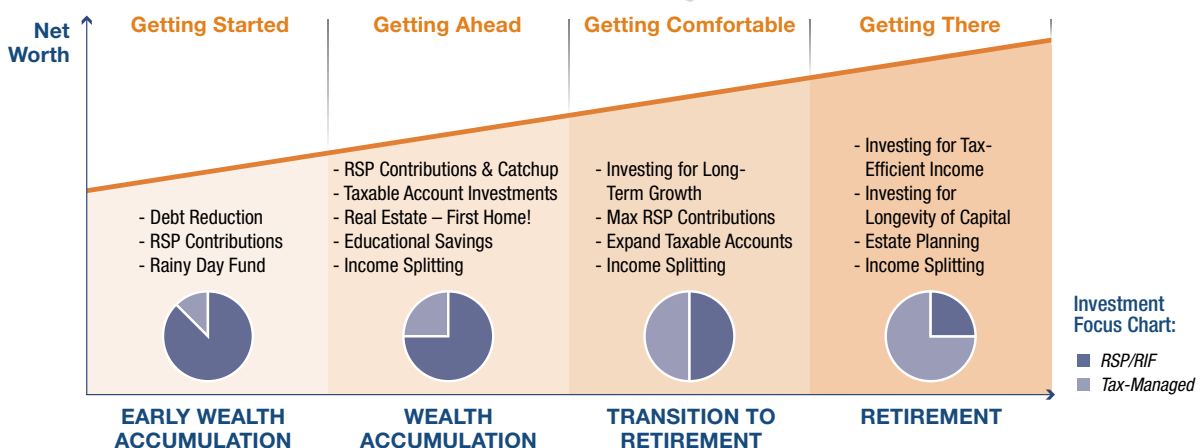

*All maximums subject to changes in Canadian Legislation. Consult your financial advisor.

**While basic federal tax starts at \$66,400, BC tax on eligible dividends does not commence until a level of \$150,800. Alternative Minimum Tax can apply.

***At these levels, Health Tax would be payable: Ontario: \$750; Quebec: \$139

The balance between saving in an RSP versus a non-registered account will change as your life and priorities change. Through NexGen you can contribute to your RSP and invest tax efficiently outside of your RSP.

Smart investing and smart tax planning that can change with your ever changing life will mean one thing for you and your family: **MORE MONEY IN YOUR POCKET!**

NexGen Investment Teams

NexGen North American Dividend and Income Funds
NexGen North American Growth Funds
NexGen American Growth Funds

Transition to Retirement

Growing your investments outside our RSPs, tax efficient charitable donations and keeping up our lifestyle.

SIX WAYS TO REDUCE YOUR TAX BILL

1. Maximize your RSP contributions
2. Contribute to a spousal RSP
3. Earn different types of income for tax advantages
4. Make charitable donations to organizations you care about
5. Use income splitting
6. Use In-Trust-For accounts to save tax efficiently for minor children

Invest better: Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Mutual funds are not guaranteed, their value changes frequently and past performance may not be repeated.

The payment of distributions for Dividend Tax Credit Class and the Return of Capital Class should not be confused with a mutual fund's performance, rate of return or yield. If distributions paid by a mutual fund are greater than the performance of the fund, then your investment will decline.

Distributions paid as a result of capital gains realized by a mutual fund and income and dividends earned by a fund are taxable in your hands in the year they are paid. For Return of Capital Class, your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base goes below zero, then you will have to pay capital gains tax on the amount below zero.

Please contact your financial advisor to learn more about the better way to invest and reducing your tax burden.
